

Perpetual Sarum Liturgical Kalendar

One weekly commemoration

edition: March 2021

To use this Kalendar: you must know: the Letter of the year and the number of the year.

The Letter controls which day of the week January 1 falls on; in leap years, the letter will advance by one on March 1.

The number controls which of the five possible weeks Easter falls on.

Year (L=leap)	Num-Let	Septuagesima	Ash Wednesday	Easter Sunday	Pentecost	First Sunday after Trinity	Sundays after Trinity
2021	2-C	Jan 31	Feb 17	April 4	May 23	June 6	
2022	4-B	Feb 14	Feb 26	April 17	June 1	June 19	
2023	3-A	Feb 5	Feb 22	April 9	May 28	June 11	
L-2024	2-G; 2-F	Jan 28	Feb 14	March 31	May 19	June 2	
2025	5-E	Feb 17	Mar 1	April 20	June 4	June 22	
2026	3-D	Feb 1	Feb 18	April 5	May 24	June 7	
2027	1-C	Jan 24	Feb 11	March 28	May 16	May 31	
L-2028	4-B; 4-A	Feb 13	Feb 26	April 16	May 31	June 18	
2029	2-G	Jan 28	Feb 14	April 1	May 20	June 3	

This Kalendar has three sections.

Section one from January 1-January 10, and appears directly after this introduction. For this section all that is needed is the Letter of the year.

Section two is the moveable part of the year, with the variations beginning as early as January 11 In Year 1-D. For this section one must know the letter of the year, and also the number of the year in order to choose the correct file:

Year 1: Septuagesima is from January 18-January 24

Year 2: Septuagesima is from January 25-January 31

Introduction

Year 3: Septuagesima is from February 1-February 7

Year 4: Septuagesima is from February 8-February 14

Year 5: Septuagesima is from February 15-February 22

Of course, leap-year will cause a switch in the letter by one as is indicated in the tables

When section two runs out, the Kalendar continues with section three.

Section three is the conclusion of the year. One must again know the letter of the year, and also the number of the Sundays after Trinity (until Advent, of course). Section three appears at page seven of this file.

IMPORTANT NOTE: In order to read the tables correctly, it must be understood that each day begins not with the morning (matins), but with the previous evening (vespers). First vespers of the Circumcision (January 1) actually falls in the afternoon of December 31. The indication of a new day in the chart represents midnight.

Colours are used as an aid to following the Kalendar.

Principal and major doubles	Minor and inferior doubles	Simples of nine lessons (or three in Eastertide) and octave days and vigils	Ordinary Sundays	Sundays in Lent; ember days, special fasts, Triduum	Commemorations	Unruled feasts (of three lessons)	ferias
-----------------------------	----------------------------	---	------------------	---	----------------	-----------------------------------	--------

These colours are intended only as visual aids, and associations with liturgical colour schemes are purely coincidental.

In the tables below:

Column 1 indicates the feast as indicated in the regular Sarum Kalendar.

Column 2 contains notes that pertain to all the indicated day, no matter which day of the week it is.

Columns 3-9 indicate the content for each letter-year. It will be observed that the feast indicated in the Sarum Kalendar (column 1) is not always the same as the celebration that actually occurs in a given letter-year on that particular day.

Column 10 contains additional notes.

Each separate table represents one day in the Kalendar year, beginning with first vespers and ending with mass or none.

This Kalendar presumes that there will be a norm of one weekly commemoration, of the BVM, on Saturday (if possible), the commemoration is shifted to other week days if necessary, or omitted altogether. The placement of commemorations in this Kalendar is occasionally subject to interpretation: users may wish to move a commemoration in order to be able to observe a saint's day, or to permit the observance of the commemoration with first vespers.

M- indicates a memorial; however, all memorials indicated in the pica, but not all the memorials that are actually to be made appear on this Kalendar.

The information presented here is distilled from the Kalendar, the Pica, and the rubrics.

Text in red highlights occasional points of possible confusion or dispute.

At this point the Kalendar continues in the Second Section with one of the five possible year-patterns.

Year 1: Septuagesima begins January 18-January 24

Year 2: Septuagesima begins January 25-January 31

Year 3: Septuagesima begins February 1-February 7

Year 4: Septuagesima begins February 8-February 14

Year 5: Septuagesima begins February 15-February 22

When Section 2 runs out the Kalendar continues with Section 3, the conclusion of the year, which follows immediately below.
